PROGRAMMING LANGUAGES:	C++, C, Shell scripting
WEB TECHNOLOGIES	HTML, CSS, JavaScript
LIBRARIES/Frameworks	React, Node.js
TOOLS / PLATFORMS	Github, Docker, API, Git, Linux
DATABASES	Sql, MongoDB

## PROJECTS / OPEN-SOURCE

WEBCAT | [LINK](#)

HTML, CSS, JavaScript, Node.js, WebRTC, web socket

- Developed a secure cloud-based group chat and video call platform with features such as secure temporary storage, group calling, chat, and screen share. The platform is free to use.
- Backend in Node.js which supports event-driven, non-blocking I/O model making Webchat well-suited for real-time chat and video call.

MEDIA-GROUP | [LINK](#)

HTML, CSS, JavaScript, Node.js, SQL, API

- Created a platform for managing multiple social media accounts. Users can handle their social media accounts from a single platform and adding analytics features.

EASY SHARE | [LINK](#)

EJS, JavaScript, Node.js, SQL

- Developed a solution for uploading, sharing, storing data securely, allowing users to access it from anywhere using a browser using short link. Also includes functionality for converting PDF documents to Word and vice versa.

FEEN ECOMMERCE | [LINK](#)

React, JavaScript, Node.js, MongoDB

- Aimed to provide capability of deal with high load server and single page ecommerce website using node.js, MongoDB in backend and react in frontend

## CERTIFICATIONS

- Full stack web development certification from Internshala - INTERNSHALA
- Test Automation - EPAM
- Software Engineer Certificate - HACKERRANK
- AWS Cloud Solutions Architect - COURSERA
